# THE KINGDOM SUMMIT 2024

## WELCOME REMARKS

It is my pleasure to welcome you all to The Kingdom Summit 2024. This year's theme, "Harnessing Faith and Resilience in the Marketplace," speaks to the essential qualities that will enable us to not only survive but thrive in the face of the complex challenges that characterize today's world.

In an era of rapid change and uncertainty, it is our faith and resilience that anchor us. Faith gives us the confidence to trust in God's plan even when the marketplace seems unpredictable, while resilience ensures that we rise above the obstacles with determination and purpose. This summit aims to equip us with the spiritual tools and practical strategies we need to stand strong and continue making an impact in our various spheres of influence.

This year, we are excited to reintroduce both the Job Fair and Business Fair as part of the summit. These initiatives are designed to provide practical opportunities for individuals seeking employment and for entrepreneurs looking to expand their networks and resources. We trust that these fairs will further empower attendees to actively apply the principles of faith and resilience in their careers and businesses.

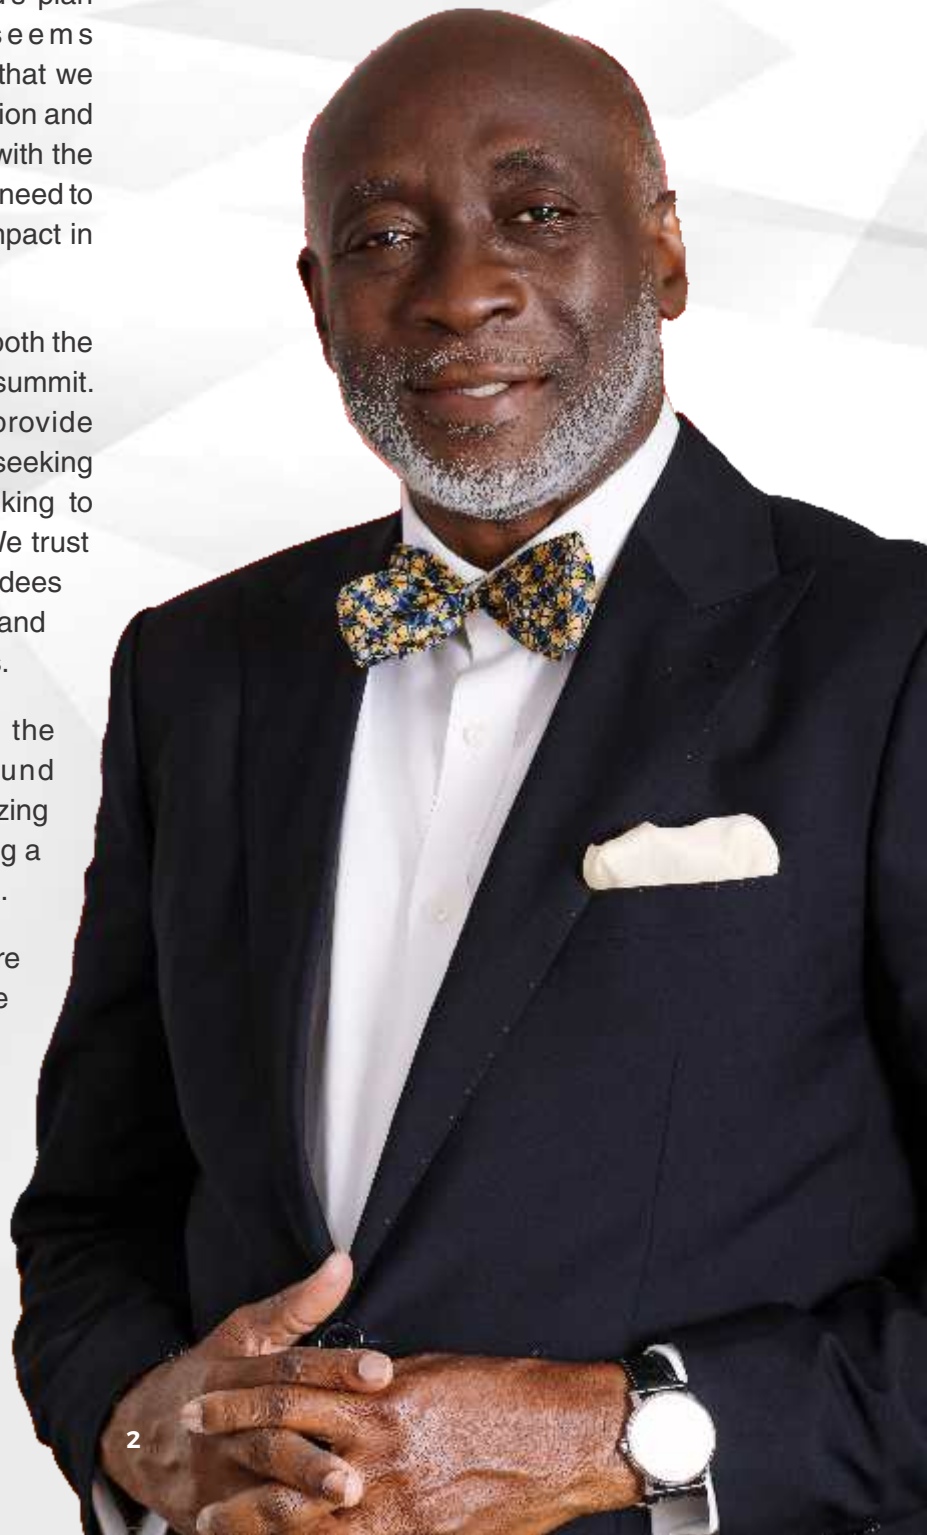

Additionally, we will be announcing the winners of the Goshen Impact Fund programme during the summit, recognizing innovative entrepreneurs who are making a difference in the marketplace and beyond.

Our resource persons, many of whom are from within this very congregation, are experts in their fields and exemplary leaders who embody the principles of Kingdom living. Their experiences will offer us practical wisdom and spiritual encouragement as we navigate the complexities of the marketplace.

As we embark on this journey together, I pray that you leave this summit inspired and empowered, ready to harness your faith and resilience in ways that will positively impact both your personal and professional life.

**Welcome to The Kingdom Summit 2024!**

**DR COSMAS

MADUKA** CON

SPEAKER

**D**r. Maduka was born in Jos, Plateau State on December 24, 1958. He is the founder, President/CEO of Coscharis Group. From a very humble beginning as a one-man business, Dr. Maduka has been able to build a colossal business empire that cuts across almost every critical sector of the nation's economy.

Dr. Maduka came from a relatively unknown and obscure background. Having lost his father at a very early age of 4, he had no opportunity to acquire formal education. But by dint of mind-set, hard work, dedication and perseverance, he has become one of the leading CEOs in Nigeria.

He is today an icon in the Nigerian Automobile industry as he is regarded as a benchmark for other operators in the industry. This reflected in Coscharis Motors being appointed as sole dealer for notable luxurious brands like Rolls Royce, BMW, MINI, Jaguar Land Rover Renault & Ford in Nigeria.

Dr. Maduka is today regarded as success personified as he had become a resource facilitator in youth empowerment seminars and conferences where he had strived to educate the generality of the people that one's background does not determine one's destiny, rather it is your mind set/ attitude, past actions and inactions and reactions to the events and circumstances around you. In recognition of his numerous contributions to youth empowerment, he was invited to Vienna, Austria by United Nation Industrial Development Organisation (UNIDO) to present a paper on "Fostering Entrepreneurial Youth" based on true life experiences.

Dr. Maduka as a great philanthropist and humanitarian has made tremendous material and financial contributions to educational institutions. He constructed and donated a Law Lecture Theater to University of Nigeria, Enugu Campus and had continued to maintain the facility at intervals. Equally worthy of note is the building of a three-storey block of six luxurious flats of four bedrooms with boys' quarters for the College of Medicine, Nnamdi Azikiwe University, Nnewi Campus. Also, Dr Maduka through his pet project, Coscharis Foundation has awarded numerous scholarships which have enabled indigent but bright students to pursue their life ambitions in various institutions of higher learning.

In recognition of his outstanding qualities, experience and contributions to the education, business and commercial landscape, he was awarded Honorary Doctor of Business Administration by the University of Nigeria October 7th 2003 and Distinguished Fellowship of the Nigeria Law School in 2004. He is also a Fellow of African Business School and a member of Financial Reporting Council of Nigeria as well as Institute of Directors, Nigeria.

In September, 2012, he was conferred with the National Honours of the Commander of the Order of the Niger (CON) by the President of the Federal Republic of Nigeria.

Dr. Maduka's business exploits have earned him global media recognition and attention. He was featured on the cover page of November 2015, edition of the prestigious Forbes Magazine. In the same vein, he was also featured on CNN Market Place Africa in 2016. Dr. Maduka in 2016 emerged as The Sun Investor of the Year and in 2020 as The EY Entrepreneur of the Year, West Africa.

He is a member of the prestigious Lagos Business School Advisory Board and also a Guest Lecturer at the University of Lagos Business School Lecture Series. He is also a member of the Board of Directors,

Nnamdi Azikiwe University Business School.

On October 21st 2016, he was again honoured by Afe Babalola University, Ado Ekiti with another honorary Doctor of Business Administration (Honoris Causa).

He was yet again awarded an honorary Doctor of Science & Business Administration by Michael Okpara University of Agriculture, Umudike, Abia State on November 27th, 2021

He served as a Director in Access Bank Plc; one of the leading banks in Nigeria for twelve (12) years from 2000-2012 and was the President, Nigeria Table Tennis Federation from 1996-2008 when he voluntarily retired.

He is an Alumni of Harvard Business School (Executive Education Program, November 2009)

Dr Maduka loves God and does not feel ashamed to profess Christ wherever he is and whenever opportunity calls. He is an ordained Minister in the Local Christian Assembly. He was married to his late wife, Mrs. Charity Maduka and the union had five children.

### **RCCG The Oasis**

RCCG The Oasis is a young adults Church that was birthed out of the RCCG The King's Court in December 2013.

The Oasis was birthed from the promise of God in Isaiah 41 v 18 - 20 which says: *"I will open rivers on the bare heights, and fountains in the midst of the valleys; I will make the wilderness a pool of water, and the dry land springs of water. I will plant in the wilderness the cedar, the acacia, the myrtle, and the wild olive; I will set the cypress in the desert, the plane tree and the pine tree together, that men may see and know and consider and understand together that the hand of the Lord has done this, that the Holy One of Israel has created it."*

Before the promise, verse 17 says: *"the poor & needy are seeking water. their tongues are parched with thirst, I the Lord will answer them, I will not forsake them..."*

At The Oasis, we believe God's answer is people - first, His Son Jesus, The Living Water and then the promise of choice trees, i.e. Sons & Daughters who have Him as their source; authentic, holy, courageous, servant-hearted, faith-filled & faithful people. So our commitment is to be a House of refreshment for a generation that's hungry & thirsty, searching for God along many desert pathways. It is to be and to disciple men and women after the pattern of Jesus Christ; marked by Godly Spirit, character & excellence.

Our journey since 2013 has been full of learning - encountering God, cultivating Kingdom culture, forging friendships and growing strong family bonds. We are excited for the future; to continue being transformed by God, to discover more of the work He has for us and to do it His Way for His Glory.

# The INSTITUTE

for Innovation, Integration & Impact, Inc. USA

## WHO WE ARE

The Institute is a Silicon Valley think tank working with leaders and corporations on their Purpose and the Purpose of their organization. Since our inception in 1996 we have held that Purpose is the greatest driver of Innovation, the True North that brings alignment, or Integration, and stretches one to think of lasting Impact.

## OUR SERVICES

### Repurposing Business

Corporate Social Responsibility. Triple Bottom Line. Social Entrepreneurship. B Corporations. 4th Sector... There's no question that doing well while doing good is a hot topic worldwide. Customers demand it, communities deserve it and shareholders reward it. We help organizations discover a higher purpose, then align their entire corporation behind it.

### Leadership Development - LEMON Leadership

Much has been written on leadership, but most writings focus on only two or three categories of leaders. LEMON Leadership expands our view of leadership to cover five distinct types of leaders: Luminaries, Entrepreneurs, Managers, Organizers and Networkers. LEMON Leadership helps you to identify which type of leader you are and shows you how to apply your specific characteristics within your organization.

### Work-Life Integration – Convergence

Work is a gift, not something one must trudge through to get to the fun part. At The Institute, we're passionate about helping people discover and implement their life calling. We don't believe in balance. Life is not meant to be compartmentalized. Convergence is about living 100% of your life fully integrated with your purpose.
